As with bonds, CD prices move opposite to interest rates, increasing when rates decline and falling when rates increase. Market values of longer-term CDs tend to be more sensitive to interest rate fluctuations. Thus, longer-term CDs are generally not suitable for investors with a short-term horizon. Other factors that may affect CD prices are order size, call features and investor demand.

Assessment of a patient having an amputation should begin as early as possible, ideally preoperatively, by the whole multi-disciplinary team in order to prepare the patient, maximise the potential outcome of the procedure both surgically and functionally. In fact, the decision to amputate should be made by this team where ever possible[14#93;4#91;24#93;].
